

The Mobile Access North Yorkshire project is part of the Department for Digital, Culture, Media and Sport (DCMS) 5G Testbed and Trials, Rural Connected Communities programme.

Its aim is to deliver ultrafast broadband and mobile connectivity by understanding how the latest technology works within a rural setting - helping the North End of Coverdale to connect.

To find out more about the project, Mobile Access North Yorkshire (MANY) would like to invite you to:

**Title: Coverdale Community online engagement event**

**Date: Thursday 4 February 2021 at 6pm or Wednesday 10 February 2021 at 4pm**

**Via: Zoom or telephone**

**To book, follow: <http://bit.ly/2LUOXJX> for 4 Feb;**

**<http://bit.ly/3oH5zUd> for 10 Feb or call 01904 704177**

## Further information

Following support from several parish councils within the locality and discussions with residents, we would like the opportunity to engage further with the community. The event, hosted by Community First Yorkshire, an independent charity which works with community groups across North Yorkshire, will cover:

- The project aims
- An update on the progress of the project
- Details of how mobile and broadband connectivity will be brought to the North End of Coverdale
- An opportunity to hear from residents
- Questions and answer session

We welcome questions prior to the event, which will be answered on the night.

## Get involved

There will be an opportunity for some residents to present their views about why digital connectivity - ultrafast broadband and mobile connections outside the home - would have an impact on life in Coverdale.

If you would like the chance to present your views at the meeting, please see the event booking page or call for further information.

Presentations **CAN ONLY** be made by those who reside within Coverdale.
