

Mobile Access North Yorkshire would like to invite you to:

Title: Connected Futures: Mobile Access North Yorkshire Coverdale event

Date: Tuesday 18th May

Time: Drop-in between 10.30am and 7pm

At: Bell Barn, The Saddle Rooms, Coverdale DL8 4TJ

Drop-in to find out more

The MANY project is due to go live in Coverdale in the coming weeks and - as Covid-19 restrictions lift - we would like to invite you to find out more about a digitally connected future. The structure of the day will be flexible allowing us to maintain a Covid-secure environment whilst ensuring as many people can visit as possible.

The event will include a series of stands giving you the opportunity to:

- Chat with our project partners to find out more about the MANY project's aims and objectives including details of our use cases
- See the equipment and technology up close and talk to our technical teams
- Find out about the independent research project conducted by Lancaster University Management School which many of you have been taking part in

- To tell us about any problems you feel could be improved by reliable broadband and mobile signal
- Ask questions about how to get involved
- Find out more about the digital skills support we can offer to ensure that you're up to speed
- Look forward at how 5G is being used and could enhance your lives and livelihoods

If you have any questions prior to the event please do not hesitate to contact us:
